

Double well ($\beta = 16$), $d = 10$. Best: ULA ($\eta = 0.01$), $b^2 = 0.0035$

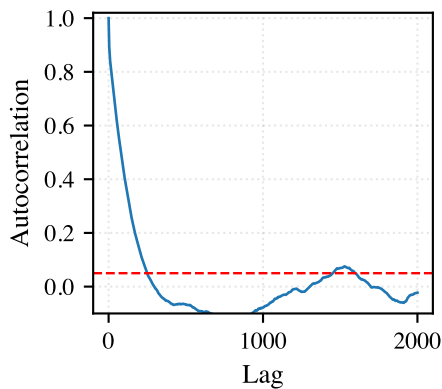

Samples on density contours

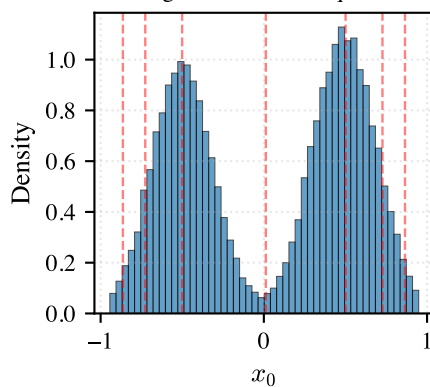

Trace of x_0

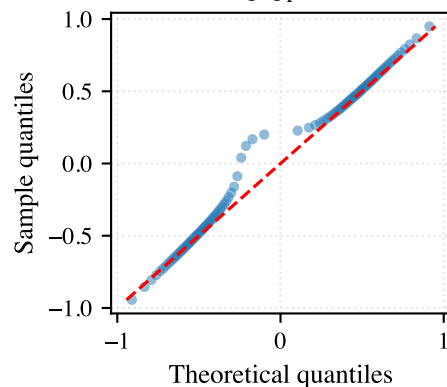

Autocorrelation of x_0

Histogram, theoretical quantiles

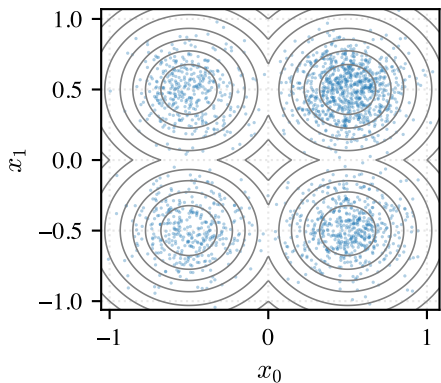

Q-Q plot

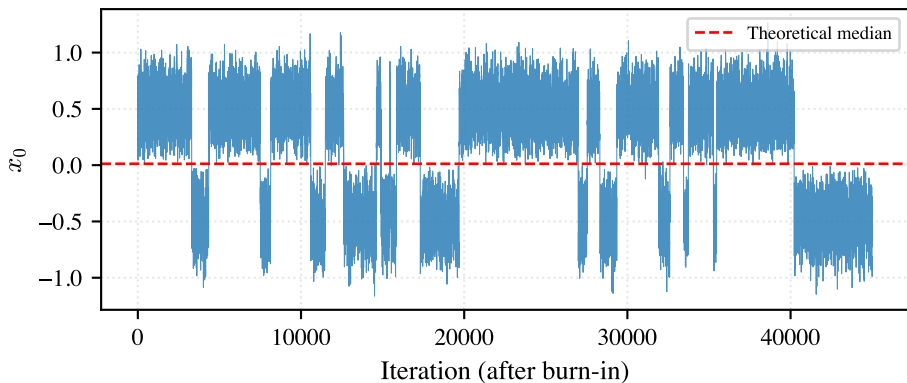

Double well ($\beta = 16$), $d = 10$. Worst: MALA ($\eta = 0.01$), $b^2 = 0.0123$

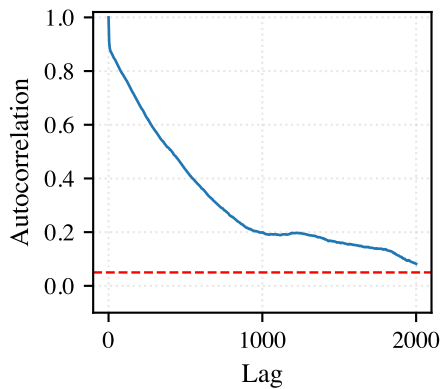

Samples on density contours

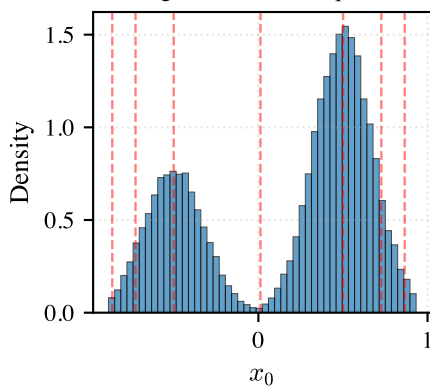

Trace of x_0

Autocorrelation of x_0

Histogram, theoretical quantiles

Q-Q plot
